TESTIMONY

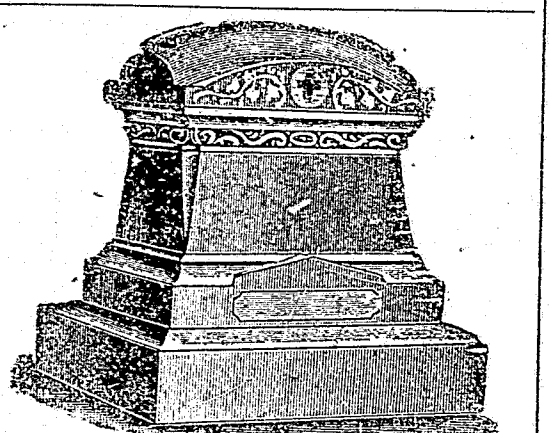

Norway People Are Doing All They Can
For Fellow Sufferers

Norway testimony has been published to prove the merit of Doan's Kidney Pills to others in Norway who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof—statements from Norway people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's a Norway case:

S. C. Foster, barber, says: "I have used Doan's Kidney Pills and I am only too glad to say to others I think they are the best of kidney medicines. Several years ago I had kidney trouble. I got Doan's Kidney Pills at P. P. Stone's Drug Store and I was soon feeling all right again. I remained so for a long time, but later caught cold and my kidneys gave me trouble. I again took Doan's and they gave me relief."

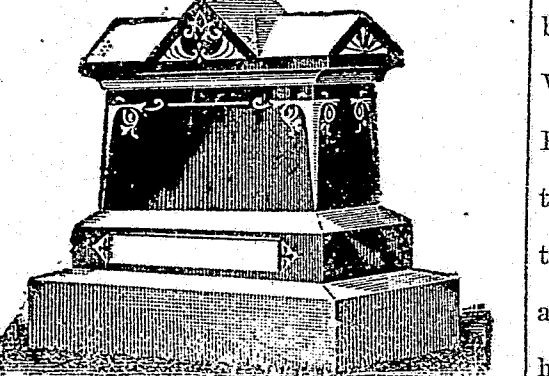

EIGHT YEARS LATER, Mr. Foster added: "I still think as well of Doan's Kidney Pills today as when I first endorsed them. I used them occasionally, as I feel in need of them and I am always promptly benefited."

Price 60¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Foster had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

The most wonderful woman in this
vicinity is Mrs. Cynthia Bonney, who was
ninety years old the 4th. Two of her
friends, who are nearly thirty years her
junior, were calling on her and she
showed them an original poem which
Sharon Robinson had sent her on her
recent birthday. Both ladies shame-
facedly confessed that they could not
read it as they had left their glasses at
home, whereupon Mrs. Bonney took it
and without glasses read it in a clear
well modulated voice. She lives with her
daughter, Mrs. Epyrus Bosworth, who
strives to make her mother's life pleas-

antest in the house and her days are
passed in peace and all possible comfort.

Shoe Prices

I want to take a little time and some space in this paper, that I may
discuss with the readers of this article or advertisement, the shoe situa-
tion as it now stands. We will admit that prices are high, much higher
than they ought to be, but we do not admit that they are out of propo-
tion to the other necessities of life. I have recently paid \$6.00 for
barrel of apples and I am perfectly satisfied with the price and surely
believe that they could not be sold for less at a profit. I pay 65 cents
per pound for butter, 12 cents a bottle for milk and so on down the list,
and the producers are not getting any more than they ought to have for
their work.

We have at the present time a store full of footwear of all kinds
which we bought and are selling below the market price to-day. Our
retail price on more than half our stock is less than we can buy at whole-
sale. It has always been the purpose and policy of this store to give our
customers full value for their money, and this policy has surely been the
means of bringing to us a good business which has increased year after
year. Our customers have been loyal to us and we surely appreciate it.
Now as the holidays are approaching we will suggest that you buy
useful gifts and we are sure that footwear of all kinds is always useful
and acceptable. We are also positive that we can suit you in style, qual-
ity and price.

We are fitting up and expect to have in operation in a few weeks, a
modern boot and shoe repair department. We shall have all new and up
to date machinery and intend to have as good a repair shop as can be
found anywhere.

George Davee will be in charge and that fact is a guarantee that the
work will be done right. We shall use the best of stock and our prices
will be as low as good work can be done. We shall make a great effort
to get the work out promptly. You will be informed when this depart-
ment is ready for business. Save your repairing for us.

UNITED STATES OF AMERICA
VS.

1477.42 Acres of land situated in Oxford County, Maine, Charles H. Adams, Fred H. Bartlett, Adam E. Chandler Buzell, George A. Allen, No. 570 AT LAW J. Waldo McIntire and others.

To the Honorable Clarence Hale, Judge of the District Court for the District of Maine.
The petition of the United States brought by John F. A. Merrill, United States Attorney for said District of Maine, under the instructions of the Attorney General and at the request of the Secretary of Agriculture, respectfully shows as follows:

1. That, by an Act of Congress approved August 1, 1888, (25 Stat. L. 357), it is provided: "That in every case in which the Secretary of the Interior, or any other officer of the Government has been, or hereafter shall be, authorized to procure real estate for the erection of a public building or for other public uses, he shall be, and hereby is, authorized to acquire the same for the United States by condemnation, under judicial process, whenever in his opinion it is necessary or advantageous to the Government to do so." And the United States Circuit or District Courts of the district wherein in such real estate is located shall have jurisdiction of proceedings for such condemnation."

2. That, by an Act of Congress approved March 1, 1911, (36 Stat. L. 961), among other things it is provided as follows:

"Section 3. That there is hereby appropriated for the fiscal year ending June thirtieth, 1911, and for each of the fiscal years thereafter a sum not to exceed two million dollars for use in the examination, survey, and acquisition of lands located on the headwaters of navigable streams or those which are being, or may be developed for navigable purposes. Provided, That the provisions of this Section shall expire by limitation on the thirtieth day of June, nineteen hundred and fifteen."

"Sec. 4. That a commission to be known as the National Forest Reservation Commission, consisting of the Secretary of War, the Secretary of the Interior, the Secretary of Agriculture, and two members to be selected by the President of the Senate, and two members of the House of Representatives, to be selected by the Speaker, is hereby created and authorized to consider and pass upon such lands as may be recommended for purchase as provided in Section 3 of this Act, and to fix the price or prices, at which such lands may be purchased, and no purchase shall be made of any lands until such lands have been duly approved for purchase by said commission."

"Sec. 6. That the Secretary of Agriculture is authorized and directed to examine, locate, and recommend for purchase such lands as he deems proper for the National Forest Reservation Commission on the results of such examination; Provided, That any lands so recommended for purchase shall be examined by the Geological Survey and a report made to the Secretary of Agriculture, showing that the control of such lands will promote or protect the navigable streams, or the flow of navigable waters."

"Sec. 7. That the Secretary of Agriculture is hereby authorized to purchase, in the name of the United States, such lands as have been approved for purchase by the National Forest Reservation Commission, at the price or prices fixed by said Commission: Provided, That no deed or other instrument of conveyance shall be accepted or approved by the Secretary of Agriculture until the price or prices fixed by said Commission in which the land has been sold, and the acquisition of such land by the United States for the purpose of preserving the navigability of navigable streams, and the Secretary of Agriculture may sell such lands as necessary to secure the safe title in the United States of the lands to be acquired under this Act, but no payment shall be made for any such lands until the title shall be satisfactory to the Attorney General and shall be vested in the United States."

3. That the National Forest Reservation Commission provided for in Section 4 of said Act, has been duly appointed and organized in compliance therewith; that the Secretary of Agriculture has examined, located and recommended for purchase the lands herein described, which in his judgment are necessary to the regulation of the flow of navigable streams, and has reported to the Secretary of Agriculture showing that the control of the said lands will promote or protect the navigable streams, and the flow of navigable waters; and that the National Forest Reservation Commission has considered and passed upon said lands and has approved and recommended the same for purchase or acquisition by the United States, and the funds necessary for the payment of said lands are available when needed and said lands are necessary for the purposes of said Act or Acts.

4. That the Legislature for the State of Maine in said State said lands be, by its resolve approved, March 1, 1911, (Resolved, That the State of Maine, Chapter 122, consented to the acquisition of said lands by the United States for the purpose of establishing a National Forest Reserve and for preserving the navigability of navigable streams and the nature character and location of the said lands are within the provisions of the said Act or Acts.

5. That in the opinion of the Secretary of Agriculture and said National Forest Reservation Commission, it is necessary and advantageous to the Government to acquire title to said lands for the United States by condemnation under judicial process.

6. That, by an Act of Congress, approved August 10, 1912, the third section of the Act approved March 1, 1911, referred to in the second paragraph of this petition, was amended in the following language: "And in order to carry out the purposes mentioned in section three of the Act of March first, nineteen hundred and eleven, and to enable any State to enable any State to cooperate with any other State or States, or with the United States, for the protection of the watersheds of navigable streams, and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers." (Thirty-third Statutes at Large, page nine hundred and sixty-one), as amended, there is hereby appropriated out of any money in the Treasury not otherwise appropriated, available until expended, the sum of \$100,000 for the fiscal year ending on the thirtieth day of June, nineteen hundred and seventeen, and \$2,000,000 for the fiscal year ending on the thirtieth day of June, nineteen hundred and eighteen."

A number of the workmen in the last year met and marched to the residence of Charles Lawrence and presented him an easy chair. To say Mr. Lawrence was surprised is putting it mildly, however he was comfortable and provided for, he sent an order to the restaurant for oysters fried and in the stew, cake, coffee, chocolate, oranges and cigars. After the lunch was served, greetings of the season were extended, all feeling that the evening had been very pleasantly passed.

State Report of Education On Union High School

The following opinion on the proposed Union High School for Norway and So. Paris has been received from the State of Maine School Dept. by Supt. T. C. Morrill.

"It is clear to all who are making a study of high school education that a very marked change is taking place. This change is particularly noticeable in its trend toward vocational education, emphasis upon training for good citizenship and broadening and deepening of the general training which the high school gives. It is clearly recognized that the high school has very great influence upon the student body in preparing them to meet the demands of industrial, civic and social life. It is clear that if this training is to be given in the most effective manner a very different type of school must afford opportunities for the training of training along lines leading to the important industries and the strong and possible development along civic and social lines. It appears from experiments that have been going on for several years—sufficiently long to demonstrate the efficiency of the plan—that the most successful work can be done in a school comprising what is now the last three years of the high school course made up of students who for the most part have fairly clear notions as to what they are likely to do after leaving school. Such a school is able to give intensive work along several important lines. It is this type of school which I understand the towns of South Paris and Norway have under consideration.

This type of school would insure at the start a thoroughly capable administrator at the head, teachers especially chosen with reference to their ability to handle certain subjects, and special courses along certain vocational lines serving the major industries of the community. These, as I think of them, would include the trades and industries, agriculture, the latter, for example, would not be developed under a single teacher. Facilities for physical training and social training could be provided. Of course this would be possible without the duplicating of what is already being done in the town attempted to provide such opportunities for its high school pupils.

An equally important phase of high school organization is the junior high school. This school embraces the last two grades of the elementary group and the first year of the present high school. As now developed, it gives a far more effective kind of training for pupils of these years than does the present system. The success of this plan has been demonstrated beyond doubt. The proposed plan for Norway and Paris would make it possible to build up strong junior high schools in each village. The facilities for doing this are already at hand; the only changes that would come would be in the rearrangement of grades and the special preparation of teachers. This system would react very favorably upon the grades below and in my judgment the whole school organization would be greatly benefited by this plan.

"I have no hesitation in saying that the plan for the union high school is in my mind the most effective means that could be adopted for developing a high school of unusual strength for these towns. Norway and Paris would easily lead the state so far as smaller towns are concerned in their educational program. I believe there should arise no competition which cannot be easily met. The results of cooperation between these two towns which have so many interests in common will unquestionably lead to greater industrial development and will make for the future prosperity of both communities. I am confident, too, that the civic and social interests will be served in such a manner as to be most valuable and wholesome. I am especially anxious that this project be carried through because the plan is one which I have recommended in several instances to towns similarly located. I believe that through this means alone will we be able to provide the type of high school education which the proper training of our young people demands."

In a future issue of the Advertiser will appear some opinions and estimates on the building as presented by architects and people in position to know concerning such a building.

KANE DECLARES HE IS POWERLESS TO CHECK GOUGERS

Handicapped by Cooke's Refusal to Reorganize Wartime Fair-Price Board, He Says

ATTORNEY'S DUTY TO STOP PROFITEERING, SAYS HEINZ

Prosecutor Has No Time to Answer Questions Concerning Action in Other Cities

With the housewives of this city clamoring for direct vigorous action against the food gougers, whom they hold responsible for the undernourishment of their children, Francis M. Kane, United States district attorney, declared yesterday he was powerless to check profiteering.

Mr. Kane complained he was being handicapped by the refusal of Jay Cooke, formerly food administrator of Philadelphia, to reorganize the fair-price board. That is, he said, of publicity, ought to be of profiteers, he said.

But Howard Heinz, attorney for Pennsylvania, said Mr. Kane on that point.

Mr. Kane said that he had a view with the PUBLIC LEADER, although he was making every effort to have fair-price boards re-established, that would not relieve the federal authorities from their duty to stop profiteering.

The district attorney said that the lever food control act proved to be effective in cases of profiteering as distinct from profiteering, which is difficult to prove violations.

Mr. Kane acknowledges that prices are inordinately high. Ignoring the price of meats, regarding which Robert M. Simmons, agent of the State Food and Dairy Department and government food and drug inspector, has given him a mass of evidence, he said that "the prices of green vegetables are terrible."

At the same time, he said, the prices of other foodstuffs are not so high. He said that he had a mass of evidence, he said that "the prices of green vegetables are terrible."

Howard Heinz, food administrator
of Pennsylvania, in an interview with
the press, last night, said he is
in his power to induce
the boards, as requested
by the attorney general,
as his opinion, that
the boards will be set
up upon the high cost
of food. He stated that
he assumes regulatory
control of the food system.

Heinz's refusal of Jay Cooke,
food administrator for Phila-
delphia, to return to this city from
Europe, and reorganize the fair-
ness here, Mr. Heinz expressed
that Mr. Cooke may yet be
to assume that burden.
Mr. Cooke, in a talk over the
phone last night said he
has his determination not to
perform his duties as food adminis-

trator. "The war is over," said Mr. Cooke.
"I don't see why I should come
back to this city. I have done
the job of food administrator
for that office during the
present situation and I can't see
why I should get mixed up in it. If
I would return and see to it
the work that would be a
disaster."

Poor Fuel is Partly to Blame

When your motor heats up, do you blame the lubricating system, tight piston rings, the spark too much retarded, poor water circulation in the cooling system? Poor fuel often has a lot to do with it. Low-grade gasoline burns slowly and incompletely, producing high heat—deposits carbon on the piston heads and in the combustion chamber which retains the heat and prevents quick radiation. The remedy? High quality, quick-burning gasoline that is *uniform* in its vaporizing and ignition characteristics, that burns up completely and delivers maximum power in all weathers—SOCONY Motor Gasoline. Standardize on SOCONY and you will avoid lots of engine trouble and secure big mileage per gallon of gasoline.

At filling time look for the red, white and blue SOCONY Sign.

KUPPENHEIMER CLOTHES

It became known that about \$2.50 was added to the production cost of a suit of clothes although many claim that the cost to the wearer should not be increased, inasmuch as the increase was figured into prices set last fall for this coming Spring clothes. We cannot see anything ahead but a sharp increase in the price of clothing this coming Spring. However, our present stock will be sold without the increase.

what prices are going to be on the staple style of coats and suits that we are offer-
ing you at such low prices.

Our entire stock of ladies' and misses' coats, suits and children's coats offered
at the reduction price of 1-4 to 1-3 off the regular fair prices.

sold in some of the large stores from 39 to 45 cents which they are worth at the
present time.

VICTORINA SERGE

This is a 36-inch serge weave, figured and stripe, soft finish material
with fleeced back at only 29 cents per yard, but worth much more. Suitable for
making kimono, dressing saques, wrappers, etc.

SEWING THREAD

Coat's 150 yard spool sewing thread. We have not asked any more than 5
cents any time, but we are told it has been sold in some sections at 6 and 7 cents.
Our price will remain at 5 cents during this sale time, at least.
This of course is only a small matter, but amounts to quite a little in figuring the
difference in price by percentage, which applies to all transactions in figuring the
difference in costs.

We could go on enumerating and quoting under value prices on quantities
of merchandise that we are now selling. We quote the above few prices to sub-
stantiate our previous ads as of selling you our merchandise at under value
prices.

Union Meetings

The union meetings last week during
the week of prayer was very successful
and helpful. They were full of variety
and well attended, yet there were many
who through non-interest missed valuable
knowledge by their absence. The gen-
eral theme was, "The Church Awakened
by Her New Opportunities," and the
several topics considered were: Tuesday
night, "The Church Awakened by a
Vision of this World's Needs," at the
Universalist church; Thursday night,
"The Church Awakened by a Call for
Workers and the New Call for Coopera-
tion," at the Finnish Congregational
church; Friday night, "The Church
Awakened by the Revival of Family Re-
ligion," at the Methodist Church. Sub-
ject for sermons in the churches on Sun-
day, the 11th was "The Church Awak-
ened by a Discovery of the Reality of
Prayer." The regular midweek prayer
meeting at the M. E. church was also
along these lines of thought. Rev. H. A.
Markley, Rev. H. H. Hathaway and Rev.
A. Raits conducted these meetings to-
gether.

At the Finn church Lauri Immonen
acted as interpreter both ways, from the
English speech to the Finnish and vice
versa; also several hymns were sung in
both tongues at the same time to the
same tune. Friday evening at the Meth-
odist church a novel feature was the
presence of a company of boy scouts
who in turn gave answers to several
questions asked by their Scout Master,
Mr. Markley and their oath of allegiance,
also three new members were taken into
the order.

The adult woman's Bible class of the

The M. E. and P. B. Federated
Sunday school voted to send Carl Bane
to the Boys Conference which is held this
week-end in Lewiston. The Universa-
list S. S. are going to send Edward Stil-
well and the Finnish Cong. S. S. are to
send Willie Heikinen.

The grange met Saturday in an all
day meeting. They voted to have the
next meeting in the month of February,
March and April to be all day meetings.
Dr. Hitchcock, a better health advocate,
will speak at the next all day meeting in
January. Next week the officers-elect
and any other grange members have been
invited to go to Bryant's Pond to join
with them in a double installation to be
performed by a state officer. The dinner
invitation is the same as at Pomona;
each one carry a piece of pastry.

Mrs. Madeline P. Berry in behalf of
the grange presented to W. Master Dana
A. Grover and his worthy wife an oak
rocking chair, mission style, in ap-
preciation for their deep interest and val-
uable aid to the grange for the past two
years. It was a surprise to them. Mr.
Grover stammeringly responded with
many thanks. Mrs. Grover also graciously
responded.

Next Sunday evening under the aus-
pices of the W. C. T. U. a union prohibi-
tion meeting will be held at the Universa-
list church to celebrate the 18th amend-
ment to the U. S. Constitution. All the
students in high school or in the gram-
mar grades are requested to write essays
on some one of several subjects selected
related to it and from them some will be
selected for reading at the Sunday eve-
ning meeting. There will also be songs
from the schools. Other interesting
things will be on the program, also a
white ribbon chorus.

Don't Let January Stock Adjustment Sale Prices Escape You

You'll Pay More for the Same Merchandise Later
Spending Now Means Spending Less. We Urge Everyone to
Share in the Values and Advantages that this Sale Offers

To one not acquainted with conditions we will say that spring
prices on all kinds of merchandise are very firm and comparisons
will show you later that our present prices are quite a little less
than like merchandise can be purchased for this spring.

Is it not worth while?

COATS, SUITS AND DRESSES ALL MARKED DOWN

The coat and suit men who have been here with their spring lines have looked
our garment stock over and they told us that we ought to be marking our gar-
ments up instead of marking them down. They realize the condition and know
what prices are going to be on the staple style of coats and suits that we are offer-
ing you at such low prices.

Our entire stock of ladies' and misses' coats, suits and children's coats offered
at the reduction price of 1-4 to 1-3 off the regular fair prices.

WOOL SERGE, SILK AND WOOL JERSEY DRESSES AT MARK-DOWN PRICES

Our entire stock of these dresses now offered at 20 to 25 per cent. discount
less than the regular price.

FURS AT GREATLY REDUCED PRICES

Fur Muffs, Scarfs and sets all priced at fully 1-3 off and on some of them a
greater reduction is made.

EDEN CLOTHS AND PAMICO FLANNELS

at only 29c per yard. These goods, especially the Eden Cloth, are
some places as high as 35 to 50 cents. Our price has not been any higher this sea-
son than 29 cents.

OUTING FLANNELS

None of our 27-inch plain or fancy outings are more than 29 cents and some
of them less.

WHITE OUTING FLANNEL, extra heavy, 27-inch white outing flannel,
value 39c, priced at only 29c, other white outings at 22 and 25 cents.

STANDARD PERCALES

Our price has not been any more than 35 cents for percales that have been
sold in some of the large stores from 39 to 45 cents which they are worth at the
present time.

VICTORINA SERGE

This is a 36-inch serge weave, figured and stripe, soft finish material
with fleeced back at only 29 cents per yard, but worth much more. Suitable for
making kimonos, dressing saques, wrappers, etc.

SEWING THREAD

Coat's 150 yard spool sewing thread. We have not asked any more than 5
cents any time, but we are told it has been sold in some sections at 6 and 7 cents.
Our price will remain at 5 cents during this sale time, at least.
This of course is only a small matter, but amounts to quite a little in figuring the
difference in price by percentage, which applies to all transactions in figuring the
difference in costs.

We could go on enumerating and quoting under value prices on quantities
of merchandise that we are now selling. We quote the above few prices to sub-
stantiate our previous ads as of selling you our merchandise at under value
prices.

Union Meetings

The union meetings last week during
the week of prayer was very successful
and helpful. They were full of variety
and well attended, yet there were many
who through non-interest missed valuable
knowledge by their absence. The gen-
eral theme was, "The Church Awakened
by Her New Opportunities," and the
several topics considered were: Tuesday
night, "The Church Awakened by a
Vision of this World's Needs," at the
Universalist church; Thursday night,
"The Church Awakened by a Call for
Workers and the New Call for Coopera-
tion," at the Finnish Congregational
church; Friday night, "The Church
Awakened by the Revival of Family Re-
ligion," at the Methodist Church. Sub-
ject for sermons in the churches on Sun-
day, the 11th was "The Church Awak-
ened by a Discovery of the Reality of
Prayer." The regular midweek prayer
meeting at the M. E. church was also
along these lines of thought. Rev. H. A.
Markley, Rev. H. H. Hathaway and Rev.
A. Raita conducted these meetings to-
gether.

At the Finn church Lauri Immonen
acted as interpreter both ways, from the
English speech to the Finnish and vice
versa; also several hymns were sung in
both tongues at the same time to the
same tune. Friday evening at the Meth-
odist church a novel feature was the
presence of a company of boy scouts
who in turn gave answers to several
questions asked by their Scout Master,
Mr. Markley and their oath of allegiance,
also three new members were taken into
the order.

The adult woman's Bible class of the
M. E. and F. B. Federated Sunday
schools have recently organized their

week Thursday evening and installed the
officers of the Norway I. O. O. F. with
much credit.

Norway was here a while ago and in-
stalled the following officers in the lodge
of F. and A. M., who are as follows:

The M. E. and F. B. Federated
Sunday school voted to send Carl Bane
to the Boys Conference which is held this
week-end in Lewiston. The Universa-
list S. S. are going to send Edward Stil-
well and the Finnish Cong. S. S. are to
send Willie Heikkinen.

The grange met Saturday in an all
day meeting. They voted to have the
last meeting in the months February,
March and April to be all day meetings.
Dr. Hitchcock, a better health advocate,
will speak at the next all day meeting in
January. Next week the officers-elect
and any other grange members have been
invited to go to Bryant's Pond to join
with them in a double installation to be
performed by a state officer. The dinner
invitation is the same as at Pomona;
each one carry a piece of pastry.

Mrs. Madeline P. Berry in behalf of
the grange presented to W. Master Dana
A. Grover and his worthy wife an oak
rocking chair, mission style, in appre-
ciation for their deep interest and val-
uable aid to the grange for the past two
years. It was a surprise to them. Mr.
Grover stammeringly responded with
many thanks. Mrs. Grover also graciously
responded.

Next Sunday evening under the aus-
pices of the W. C. T. U. a union prohibi-
tion meeting will be held at the Universa-
list church to celebrate the 18th amend-
ment to the U. S. Constitution. All the
students in high school or in the gram-
mar grades are requested to write essays
on some one of several subjects selected
related to it and from them some will be
selected for reading at the Sunday eve-
ning meeting. There will also be songs
from the schools. Other interesting
things will be on the program, also a
white ribbon chorus.

NORWAY CENTER

One of the most pleasant occasions of
the winter took place at the vestry,
Thursday evening when the Christian
Endeavor Society of Norway met with
the society of this place. An oyster sup-
per was served soon after the arrival of
the visitors and this was greatly enjoyed
by everyone. After the supper the re-
mainder of the evening was spent with
games and music.

The Ladies' Circle held a dinner at the
church vestry, Wednesday.
Chester Flint and son are cutting wood
for Walter Cullinan.

Ralph Watson is working for Fred
Grover.

Carl Brown has gone to Kittery, where
he will work for a few weeks.

There will be a social at the vestry,
Friday evening, January 23.

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Muskegon Mich.—"For six years I was so weak in my back at times that I could hardly walk. Lydia E. Pinkham's Vegetable Compound was recommended to me and it made me good and strong again so that I am able to do all my work. I highly recommend your medicine and tell everyone I meet what it did for me."—Mrs. G. Schoonfield, 240 Wood Ave., Muskegon, Mich.

Woman's Precious Gift

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Feel blue

Some mental disorders, periods of depression, etc., are definite reactions from imperfect or sluggish action of the digestive organs. In these cases, 1 or 2 doses of "L.F." Wood's Medicine will dispel the mental condition, by removing the cause. Headache powders and unreliable tonics may give temporary relief, but the safe, natural processes that this well-known remedy set in action can have no harmful effect.

It is well to keep a generous supply on hand, and to take small doses regularly. This will improve your general condition, enable you to work better, and give a fuller enjoyment of life. There is no cheaper health insurance. Buy a large bottle today, 60 teaspoonful doses, for 50 cents.

MORE POETRY

(Collaboration by the Junior and the Terrestrial Manager. May be sung, chanted, whistled or tatted. Not copyrighted.)

Mary had a Mandolin
Of nicely rounded torso,
And so she thought she would begin
To be a virtuoso.
She hunted up a teacher wise
Her lessons to commence,
And teacher sure did criticize
The "bug's circumference".
It gave to Mary great chagrin
To hear her choice disputed,
And so she took the Mandolin
And rapidly skidded.

But teacher was a Gibson crank,
So Mary's name he wrote
Upon a yellow prospect blank
Which in Kazoo soon lighted.

Mary had a little grin—
The tale's so old it's seedy—
For now she plays a Mandolin,
A Gibson, yes indeed!

Woman Sick Two Years Tells How She Got Well

Miss G. I. Baird of 30 Glenview Ave., Allston, Mass., writes: "I have been sick almost two years, had four doctors with little or no relief. I was growing thin every day, went from 135 to 115. I was so discouraged, about three weeks ago, I picked up a paper and saw your Dr. True's Elixir, Family Laxative and Worm Expeller, advertised. I made up my mind I had worms, and the next day bought a small bottle of Dr. True's Elixir. I was surprised at the result, stomach worms came a-floater long, so much slime, that looked as though it was just the skin of worms. The day before I took Dr. True's Elixir I thought I should go wild with the crawling in my stomach. I feel like a new person, all my friends say I look so much better. I wouldn't have believed anyone could feel so much better in such a short time. I can't give your medicine praise enough."

Signs of worms: Offensive breath, swollen upper lip, sour stomach, deranged stomach, occasional gripings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short, dry cough, grinding of the teeth, red points on the tongue, starting during sleep, slow fever. Dr. True's Elixir, the Family Laxative and Worm Expeller, is sold by ALL DEALERS.
